# Select XLS Range

The Unique ALL-IN-ONE Programmer

**NEW  
for  
2008**

**SUNVIC**  
comfort in control

## Select 207 XLS 2 Channel Programmer

THE BEST SELLING PROGRAMMER ON THE MARKET

The Select 207XLS has 7 day, 5/2 day and 24 hour programming options, 'All-in-One' programmer, with two independently time controlled channels e.g. Heating and Hot Water. Designed for use with fully pumped Central Heating Systems, with and option for Gravity systems, using a 3 port mid position motorised valve or two 2 port zone valves.

Large clear illuminated display - Real Time Status indication

**Reverse of Unit** - Unique setup for the 24hr, 5/2 day or 7 day programming options

- 24hr - different program each day
- 7 day- same program for 7 days
- 5/2 - same program for Mon-Fri different program for Sat-Sun

### The Select Range Benefits

- Unique all-in-one Select 7 day, 5/2 day 24 hour
- Boost and advance facility on all channels
- Easy to read AM/PM illuminated display
- Automatic Summertime adjustment
- Building regulations compliant
- 6(2) A Switch rating
- Stylish design - all models available in silver effect

Pull down flap feature - Set Up Programming

Simple advance for each zone  
Zone Indicators  
+ 1 Hour boost and advance facility

## Select 307 XLS 3 Channel Programmer

The superb new 307 XLS has a 7 day setting over 3 totally separate channels e.g. hot water and two individual heating zones. Designed for use with fully pumped central heating systems using three separate 2 port zone valves. Attractive, modern design fits in with all modern house design.

*Building Regulations requires properties above 150 sq m floor space to have two individual heating zones, the Sunvic 307 XLS is the perfect solution.*

## Select 107 XLS Single Channel Programmer

The Select 107XLS 'All-in-One' programmer also has 7 day, 5/2 day and 24 hour programming options and boasts the option for use on gravity systems. Ideal for use with 'Combination Boilers' where only one heating zone is necessary, or can be used for additional heating zones in retrofit with a 2 or 3 channel programmer is already installed or for when additional hot water cylinder control is required.
